**When determining second degree requirements**, the UGSO works in consultation with the student's College to identify the number of Arts and Science courses that can be shared between the two degrees, and the number that must be used exclusively for the second degree.

**To determine the program requirements for a specific Arts and Science degree**, students can use the 'What-If' function in DegreeWorks. DW does not confirm second degree requirements.

**Second degree program regulations** are outlined in the [College of Arts and Science Academic Policies](#).
